

I N T E G R A T E D P H O N E A N D C O M M U N I C A T I O N S S Y S T E M S

YOU TALK. **WE LISTEN.**

AN OLD PHONE SYSTEM MAY SEEM A MODEL OF EFFICIENCY,
BUT, IN TURN, COULD BE OVERWORKING YOUR ENTIRE OPERATION.

Nu-Tel president, Ralph Meyers (age 6)
"Even then, he felt the need to be connected."

YOU TALK. **WE LISTEN.**

nu-tel.com

We can do some amazing things in helping you with your phone system but...

WE DON'T PROFESS TO BE SUPERMAN.

BUT CLARK KENT. NOW THAT'S ANOTHER MATTER.

HARD-WORKING. RELIABLE. HUMBLE. EASY TO GET A LONG WITH.

YEAH, THAT'S US. AND OUR CLIENTS THINK THAT'S PRETTY SUPER, TOO.

EASY TO TALK TO • EASY TO WORK WITH

Every successful business is built around the foundation of reliable communications and sub systems. In today's fast-paced business climate, having the correct telecommunications and data solutions is not only essential, but paramount to your everyday workflow. To get it right, you need the expertise of a service-oriented company that makes you feel comfortable and addresses your issues with respect. One who you can talk out your concerns and get honest, straightforward answers. That's where we come in.

NOT JUST A PHONE COMPANY...

Nu-Tel, established in 1972, is not your typical business telecommunications company. Instead, we focus on finding everyday, cost-effective solutions for you. We employ the lost art of listening to our clients one to one to find out what's best for their particular needs and respective work environments. The result is hundreds of satisfied customers who enjoy the benefit of unparalleled service and on-time installations. In its essence, all communications simply boils down to people responding to one another.

YOU TALK. WE LISTEN.

WE SOLVE YOUR COMMUNICATIONS ISSUES THROUGH
THE LATEST TECHNOLOGIES AND UNRIVALED SERVICE

Some companies will take you for a ride.

EVERY SYSTEM SET-UP MAY HAVE SOME TWISTS AND TURNS.

BUT THE EXPERIENCE IS EITHER SMOOTH OR BUMPY,
DEPENDING ON THE DRIVING FORCE BEHIND THE SCENES.

LET US STEER YOUR BUSINESS IN THE RIGHT DIRECTION

“ Every step of the way we'll
guide you on the right path
for your situation.

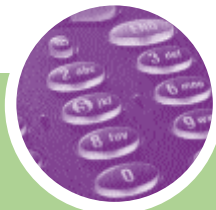

Ralph Meyers, Nu-Tel President

”

Often, many businesses make the mistake of getting talked into too much or too little when it comes to telephone systems, voice mail or data services. Buying technology should not be like buying a car. You know what's right for your company and what best suits your needs. But an unsavory and misleading sales pitch can steer you towards a dangerous path. We never take such a haphazard or free-wheeling approach with our potential clients.

You have expectations of your equipment and service people. We listen to your needs and know how to translate that into the right product or service.

We use the products we sell everyday and know how they impact an office environment. We understand your needs and can plot a road map of technology that will ensure your success now and down the road.

WE DESIGN YOUR SYSTEM. WE IMPLEMENT IT. WE MAINTAIN IT.
